

# Business Proposal

Crafting and shaping  
every brand with expert  
precision.

## Marketing

**2023**

# Why SNS?

Each business invests extensively in its products, both in terms of actual resources and intangible emotions. When a product becomes a Brand, the entire product-consumer relationship undergoes an evolution.

Most entrepreneurs believe that brand building is just for large corporations or those with vast market footprints. The truth, however, is quite the contrary SPACE N SPACE understands the process of transforming a product into a brand. We can provide more value to your day-to-day marketing communication process by designing a brand evolution strategy.

Businesses nowadays are only as strong as their brands, and the intangible value of a brand is frequently considerably higher. As a result, brands must be designed from the ground up. It is the deforming of inner values and exterior forms that enables transformative progress. As a result, our ideology is "Deform to Transform."

We like the discipline and change it enforces on the brand, as well as the interaction it fosters with customers in order to increase brand value.

We're glad you're here at snslk where design is crucial to developing a conscious brand differentiation and a higher perceived value that matters most to a customer. Said simply,

**We Create Brands!**
